MageINIC

Instagram Feed GraphQl

How to install the extension

1. Install via composer (recommend)

- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **composer require mageinic/instagram-feed-graphql**
- Run the command **php bin/magento module:enable MageINIC_Core MageINIC_InstagramFeedGraphQl**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

2. Upload via ZIP/Archive

- Back up your store's database and web directory
- Download the extension zip file and extract the zip file
- Transfer the **MageINIC** folder to the Magento 2 **app/code/** directory on the server
- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **php bin/magento module:enable MageINIC_Core MageINIC_InstagramFeedGraphQl**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

Post Request

POST : {{base_url}}/graphql

query {

    storeConfig {

        instagramfeed_enable

        total_number

        layout

```
        number_row

        show_caption

        show_popup

    }

}
```

Post Response

```
{

    "data": {

        "storeConfig": {

            "instagramfeed_enable": "1",

            "total_number": "12",

            "layout": "multiple",

            "number_row": "2",

            "show_caption": "1",

            "show_popup": "1"

        }

    }

}
```

- **Instagramfeed Enable** - Enable or disable extension,
  if enable value 1 and disable value 0.
- **Total Number** - Add The maximum number to display the image.
- **Layout** - Select to arrange instagram images in one single row, two rows or in an organized layout.
